

*"Yes I like that. Wow, I am really grateful to have met you. You are a perfect broker! I really appreciate it more than words can say. You know we have sold our home in 2007, we made a good deal selling it because it was small and I did not like the area at all. Now for a year we have been suffering in an apartment building after having lived in a two story house... So it is quite difficult. On top of that, it has been 12 years that we are married but we waited this long to finally build the house of our dreams. That is why I want it to be perfect. And that is why I am so happy that we have you at the helm. You totally understand!!!! Thank you dearly!" - Genie A*

*"Hi Anna. Now that my home in Merrick has closed, I would like to take this opportunity to thank you for all of your hard work and determination. If I had not been for your professionalism and patience I feel that my home would still be sitting on the market. You certainly went above and beyond with your "never give up" attitude. You were faced with a difficult market, declining real estate values and a home that was not an "easy sell". I really appreciated the fact that you kept me up to date on what was happening. I always felt that I was in the loop even though I was in another state. When problems came up you worked to resolve them. I would recommend you highly to anyone who is searching for a professional realtor. Please feel free to have any new clients contact me for a reference.. I wish you continuing success." - Sandy G*

*"I am writing this letter to express my appreciation to Ms. Anna Beigelman, for the help she gave me in selling my mother's house on Long Island in early 2003.*

*Anna stands out in my mind as one of the most professional, competent, and caring real estate agents I've ever worked with. I have worked with many other agents, including those who assisted in the purchase of my condominium in Manhattan, the purchase and later the subsequent sale of my house in Connecticut, and the purchase of my present home in Pennsylvania.*

*At the time I worked with Anna, I was planning an imminent move to Pennsylvania, and had a very busy agenda, including my planning for a job change (I am a busy physician in academic medicine), planning to move my office, planning to sell my house in Connecticut, purchase a house in Pennsylvania, and, lastly, planning to sell my mother's house on Long Island. During this time I continued to work full time as a physician in a large academic medical center in New York City. My mother, who had recently recovered from a complicated illness, had just relocated to Florida, and was unable to participate in the selling of her house. It was my responsibility to get the house in order, and complete the business of showing and selling the house for my*

*mother, and, of course, get a good but fair price. Needless to say, the absence of the homeowner as well as my extremely busy schedule complicated the issues.*

*I can honestly say that Anna made the job of selling Mom's house seem easy. She took care of every detail, from fixing up the house to show, getting me relevant comparison information about the local market, taking care of paperwork, and staying in contact with me with offers and crystal clear summaries of relevant details, so I could make the best decisions. No matter what the issue, I could always count on Anna to handle it well. The sale went smoothly, and my mother, who is not always easy to please, was delighted with the results. I only wish I could have worked with Anna on my other real estate transactions, which did not go as easily for me. In gratitude to Anna I am writing this letter of reference.*
